July 24, 2024

Dear ARI Valve Corporation Customer, Supplier, and Others,

As you probably know, since 1988 we have been an independent importer/distributor of ARI-Armaturen in Germany. Lately, ARI-Armaturen has been undergoing a great deal of change. After reviewing these changes and in an effort to continue to provide best-in-class services and products to our loyal customers, we have decided to rebrand and expand our product offerings to provide more value to our end-users.

Our new name, effective August 1, 2024 will be EnviroValve and Controls, Inc. Our new web address will be [www.envirovalveac.com](http://www.envirovalveac.com). Our new email addresses will have the same personal name or department name, followed by @envirovalveac.com. For instance my email will change from [jmg@arivalve.com](mailto:jmg@arivalve.com) to [jmg@envirovalveac.com](mailto:jmg@envirovalveac.com). Our billing and shipping addresses, banking information and account, as well as our telephone will remain as is. Only our name is changing.

Additionally, our rebranding will result in some exciting changes. Previously we've only offered and supported products that were produced by ARI-Armaturen. Going forward, we now have the opportunity to supply a wider range of engineered industrial valves including, but not limited to, high temperature ball and gate valves as well as a wider range of accessories and other related components. We can utilize the knowledge and resources of our sister companies: Dickow Pump, EnviroPump and Seal, and MSI Management Services International.

So if you have any flow related issues and are seeking a different supply chain or alternative products or solutions we are here to help. Please let us know what you are looking for and how we could help.

We thank you for your past and continued patronage. We will continue to be your loyal supplier as we go through these mostly cosmetic changes, and we remain open for business!

Sincerely,

James M. Gross  
President
